

ART  SMART  
adventures for families

## **ART SMART ADVENTURES: Private Family Art Tours**

Time together is every family's most precious resource. ART SMART ADVENTURES are museum and gallery tours designed to make the most of your family's time together by exploring art and culture, with enriching activities for everyone.

Each step of an ART SMART ADVENTURE is conceived with the whole family in mind. From discovering monumental sculptures that fascinate all to finding sunlit and spacious areas where kids can be kids, we keep everyone engaged so that parents can relax, learn, and enjoy as well.

Every family is unique, and so is every ART SMART ADVENTURE. Families with younger children may want to explore cultural curiosities like Egyptian mummies or the armor of medieval knights; older children may want to examine interactive works or edgier, more thought-provoking pieces. Tours are always age-appropriate—with the right balance between fun and education.

We keep the entire family fascinated.

ART SMART  
ADVENTURES  
can lead your  
family through  
NYC museums—  
customized  
to your family's  
interests and  
ages. Here are  
some examples:

**“Art Smart Adventures, a New York-based company, offers cultural classes and tours at several museums... The theory behind these programs is that cultivating visual literacy has lifelong benefits.”** —*Child Magazine*

**Around the World at The Metropolitan Museum of Art:** Travel the globe in just a few hours. This exploration will lead us through the Egyptian galleries, into the Asian Garden courtyard, on to French Impressionist paintings, and beyond.

**Modern Art in Manhattan:** New York offers some of the very best of modern art at renowned institutions like **MoMA**, the **Guggenheim**, and the **Whitney**. Parents are often surprised by the appeal of modern art to children. From Picasso to Pop, we'll help the whole family discover what is so great about this creative and colorful period of art.

**American Museum of Natural History:** Our adventure features hunting games and exploration through the Dinosaur Halls, an African Rainforest, the Hall of Ocean Life, and much more.

Our **ART SMART guides** are primarily graduate-level art historians from top New York universities. Each has been specifically trained to work with families and to customize their tours to fit each family's particular style. We know just how to bring the most sophisticated art knowledge to the youngest level, while still teaching the adults things they never knew.

**ART SMART founder Judith Walsh** developed this unique approach during her years of leading tours for The Metropolitan Museum of Art. While earning her graduate degrees in art history from Columbia University, she also studied children's literature at Columbia's Teachers College. Walsh leads ART SMART and its team of art guides.

**“Everyone will have thorough lessons in the enchantment of art.”**
